Your Global Partner
For High Pressure
Systems

STARTING FROM A SIMPLE IDEA

TO ACHIEVE **HIGH-TECH PRODUCTS**

COMPANY TYPE

We adopt the best production processes and search for the most experienced partners

STRONG POINTS

Direct and continuous link with the manufacturers, 30 years of experience in this market and in making products. Immediate solutions provided

ADDRESS TO

Distributors and/or our customers all over the world, who are able to recognize excellent production qualities which make the difference

PHILOSOPHY

We believe in the strength, bravery and passion of the manufactures and we firmly believe the quality of the product represent what we are and the values believe in

MISSION

To expand more and more our business in new markets and enter partnerships with people who believe in our project

GAS BOOSTERS |

CONFIGURATIONS
> 60

PRESSURE
UP TO 25K PSI

- Pressure range 3,000 - 25,000 psi
- Available single or double acting
- Available single or double stage
- Wide selections of models, pressure ranges and flows
- Compact and innovative design
- Sturdy and easy to maintain
- Standard certification: EN 10204 - 3.1

Flexible and efficient air-driven gas boosters for delivering High-Pressure gases

LIQUID PUMPS |

CONFIGURATIONS
> 30

PRESSURE
UP TO 60K PSI

- Pressure range 6,000 - 60,000 psi
- Available single or double acting
- Wide selections of models, pressure ranges and flows
- Compact and innovative design
- Sturdy and easy to maintain
- Standard certification: EN 10204 - 3.1

Reliable air-driven liquid pumps for heavy duty High-Pressure fluid applications

SYSTEMS |

CONFIGURATIONS
> 100

PRESSURE
UP TO 60K PSI

A range of portable gas/liquid systems, standard, customizable or custom made

VALVES |

CONFIGURATIONS
> 80

PRESSURE
UP TO 60K PSI

- Pressure range 15,000 - 60,000 psi
- Available with NPT connections from 1/4" to 1"
- Available with MP/HP connections
- Standard materials AISI 316L and PTFE
- Non rotating stem prevents galling and scoring
- Standard certification: EN 10204 - 3.1

High-Pressure needle valves and ball valves designed for liquid and gas flow control

ACCESSORIES |

CONFIGURATIONS
> 1800

PRESSURE
UP TO 60K PSI

- Pressure range 15,000 - 60,000 psi
- Available with NPT connections from 1/4" to 1"
- Available with MP/HP connections
- Standard materials AISI 316L
- Standard certification: EN 10204 - 3.1

A wide range of accessories for every needs such as elbows, tees, crosses, adapters and check valves

TUBINGS |

CONFIGURATIONS
> 50

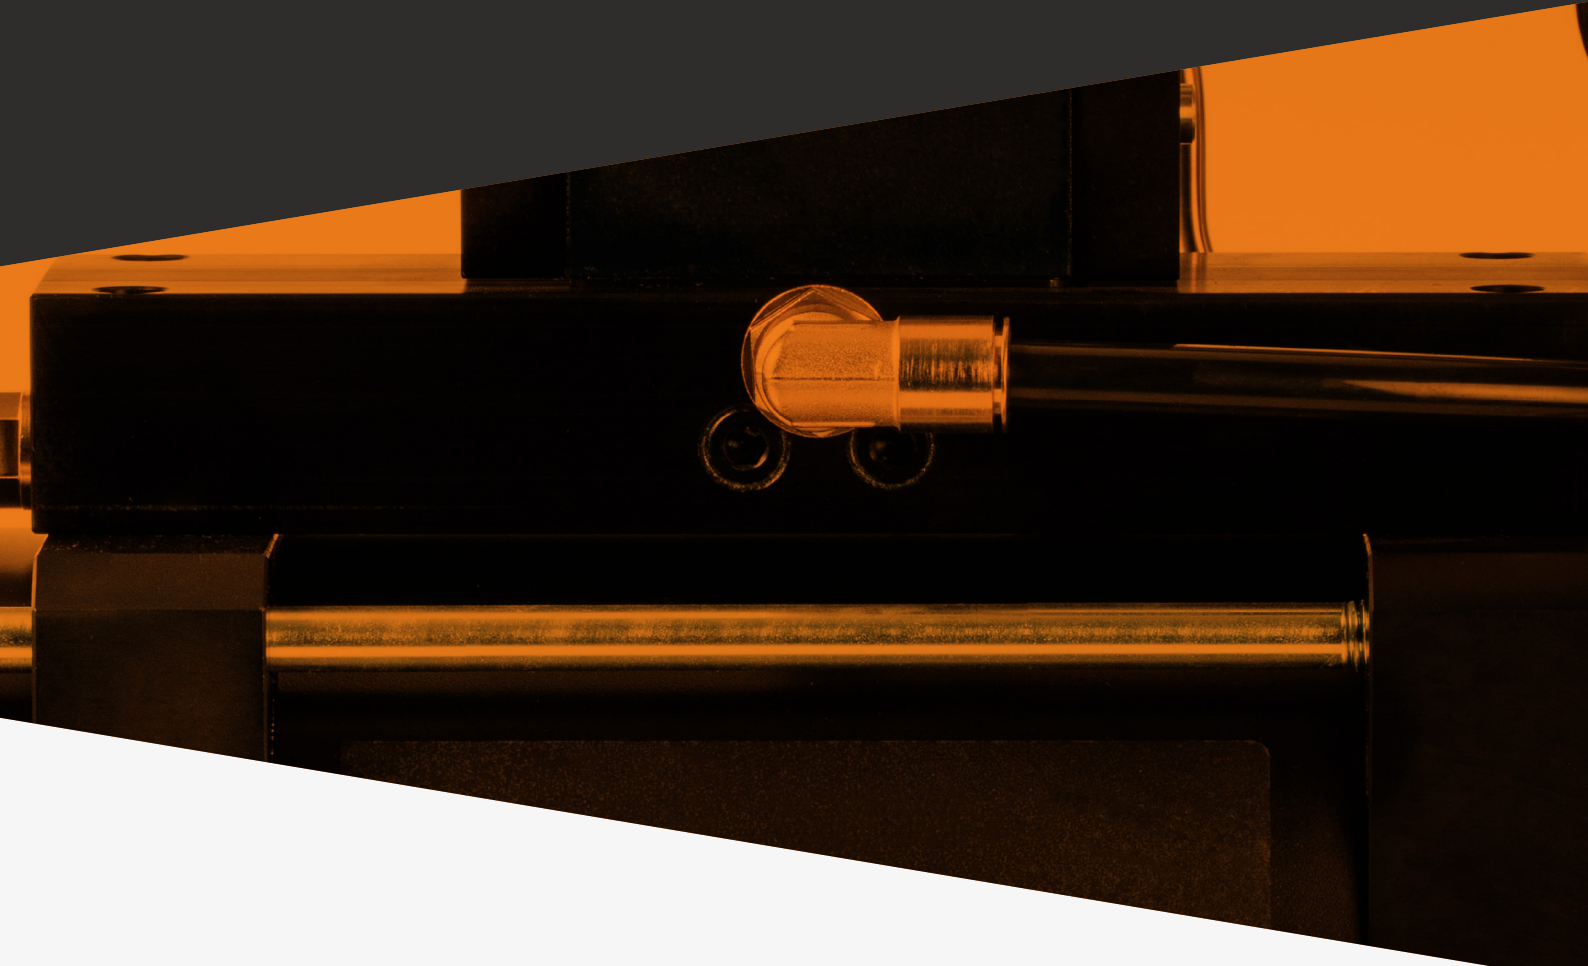

PRESSURE
UP TO 100K PSI

- Pressure range 3,000 - 100,000 psi
- Bright finish external surface
- Standard materials AISI 316/316L
- Standard certification: EN 10204 - 3.1
- Standard non-destructive test: ASTM A450/E426

Seamless High-Pressure tubings for a variety of high pressure liquid or gas applications
